

Brand Considerations

Core Brand Name: Karis

Official name: City of Karis (COK)

Sub-brands:

- Karis Living (residential)
- Karis Health (telemedicine, care)
- Karis Academies
- Karis Market (gift shop & commerce)
- Karis Events (concerts, conferences, retreats)

Social media - lock-in:

- @cityofkaris
- @karisguyana
- @karisliving

Search Keywords (always pair with 'Guyana'):

- Guyana housing
- Guyana Communities

Tagline or signature line examples:

- City of Karis: Beautiful, Empowered Living in Guyana
- Karis: Guyana's Most Desirable Place to Live
- Karis: An Off-Grid Haven, Green City for New Guyana
- City of Karis: Where global standards meet Guyanese soul
- City of Karis: Come Home to Higher Standards

Domains to register:

- www.cityofkaris.com
- www.karisguyana.com

Branding Guidelines:

Consider trademarking "City of Karis"

- Tone:**
 - Elegant, calm, confident, welcoming.
 - Avoid overly corporate, religious or mystical tones.
- Colors:**
 - Primary: gold or warm amber (oil wealth, sunlight, "grace") + Black/dark brown
 - #1E1A16
 - #9D8442
 - Accent: deep green (sustainability, Guyanese nature), warm neutral stone/taupe (upscale elegance) + Stone cream color
 - #0D4C3C or #558273
 - #FBF8F5
- Typography:**
 - A refined, legible serif or humanist sans-serif for the main wordmark "KARIS".
 - Avoid futuristic tech fonts - lean into timeless, human, graceful.

Mission:

- Become Guyana's Most Desirable Place to Live
- Bring a new home to Returning Guyanese Professionals who have 'seen the world'. A home that is both elevated and grounded.
- Build a community of grace, elegance, beauty and empowerment that embraces Guyana's evolving culture with purposeful vision, human-centric modernity and inspired luxury

Descriptions:

- City of Karis is an off-grid, green city in Guyana offering elegant homes, integrated health and education, and a digitally empowered community for the country's emerging generation of leaders, creators, and returnee professionals, who seek world-class living with cultural depth and autonomy.
- Professionals, entrepreneurs, and creatives find space to build: shared commercial spaces, revenue-sharing opportunities, and local hiring and barter policies ensure that growth within Karis circulates back to its residents and surrounding communities. Jobs, services, and businesses are designed to uplift, not just extract.

Core Elements - to be reinforced in brand messaging:

- Elegant, communal living
- Off-grid / green autonomy
- Integrated health & education
- Digitally empowered community
- Elevating Guyana's culture

Signature Experiences

- Welcome to Karis Guide:** Guided tours, experiences and onboarding flows
- City of Karis Founders' Monument** - Iconic sculptural piece at the entrance of the city:
 - Commissioned art - donated by a Guyanese artist
 - Smaller monument sculptures sold in the gift shop
- Signature Karis Atelier & Gift Shop**
 - Locally-crafted luxury Perfumes using natural essential oils
 - High-performance natural skincare
 - Curated arts and crafts
 - Festival and concerts prop shop
- Karis Annual Festival** - showcase the best of Guyana
 - Cultural competition to nominate top artists and local businesses to be represented in COK's festival
- Karis Talks:** Community Podcast - on sustainability, community, authenticity, quality living, expat life and making life-changing decisions
- Homecoming Week:** aimed at diaspora, aligned with holidays and major national events
- Telescope's multi-day Music Concert Retreats**

Introduction Message (Example)

There is a place in Guyana where mornings begin in quiet, sunlit villas, where the power never flickers, and where every detail of daily life is quietly taken care of. City of Karis is not simply a neighborhood; it is a private, off-grid sanctuary for those who have experienced the world and now wish to come home to a graceful, beautiful, finer quality of life.

Crafted for discerning Guyanese locals, professionals expats, and international guests, Karis offers:

- Architect-designed homes and villas** that combine the warmth of Guyanese landscapes with the refinement of world-class residences
- A green energy ecosystem** that delivers uninterrupted comfort and peace of mind, far from the noise of the grid
- An intuitive community app** that brings all the multiplicity of modern services under your finger taps: from private nursing, to housekeeping, to transport requests, to event bookings, and sharing with other community members
- Internationally recognized homeschool pathways and professional signature academies** bringing expert, skills-based real estate, music and hospitality training to selective students who value both excellent hands-on education and personalized mentorship
- Curated commercial spaces** where select businesses, wellness practitioners, and creators serve the community with exceptional care
- A signature refined cultural salon** offering luxury natural skincare, fine perfumes, and artful Guyanese pieces that express a life of refined culture, empowerment and beauty

Days here move at a different pace: a quiet coffee on your veranda before a telemedicine consult, a walk to a live music evening under the stars, a strategy retreat hosted steps from home, children learning in flexible, globally oriented programs, neighbors who feel more like a chosen circle.

This is Guyana, elevated. A private community where the service ethos of the world's best retreats meets the rootedness of home.

City of Karis: A life of beautiful, empowered living, reserved for those who choose to return, invest, and belong.

- Co-Creative Community:** Community-driven Calls for Action and Champion-led Innovation. Prominent names become part of the community Founders' monument
- Celebrating the evolution of Guyanese culture along with its economy**

Communication Strategy

Because this is a city-scale vision, the brand should avoid overwhelming or overpromising early on.

- Avoid overly Utopian language that suggests perfection or isolation from reality. Instead, stay grounded and credible.
- Avoid Elitist Overtones:
 - Communicate accessibility tiers, scholarships in academies, local hiring.
 - Tell stories of both high-earning professionals and upwardly mobile local families.
- Avoid Generic Real Estate Talk: Don't lean too heavily on cliches: ex. luxury finishes, Prime location, State-of-the-art... Instead, replace with specific benefits: ex. off-grid solar and storage, telemedicine within minutes, internationally accredited homeschooling...

Phased Approach

Phase 1 (Early Build):

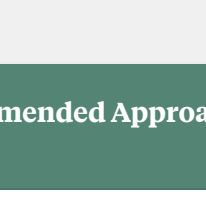

- Focus on vision + proofs of action: infrastructure underway, early homes, founding partners, visuals of construction and landscape.
- Position as: "Founding community opportunities now open."
- Community App (MVP version)

Phase 2 (Early Residency):

- Highlight real stories: first residents, pilot homeschool cohorts, first events, first businesses.
- Use testimonial-style content: "Why we chose Karis."
- Community App (Fully functioning version)

Phase 3 (Maturity):

- Shift from project to place: people think "Karis" the way they think of a district or village.
- Lead with lifestyle: events calendar, festivals, conferences, regional collaborations.
- Community App (Enhanced version)

Recommended Approach for 2026

- ☒ Strategic alignment & prioritization (ex. Avalon bank --> Cashless --> Community App --> Promote Avalon --> City of Karis...)
- ☐ **Brand Development & Confirmation:** City of Karis - as opposed to Avalon
- ☐ **Logo & New Identity:** will dictate the community app's design and branding
- ☐ **Build 'City of Karis' Website first as priority** --> use the primary promotional tool
- ☐ **Create the app's initial MVP** (minimum viable product) version: user-experience design and functional flow
- ☐ **Generate a promotional highlight video of the community app (pre-launch) to be posted on the main website**
- ☐ **Create an early onboarding form for new/existing home owners to become community members** - with early-bird incentives (ex. bonus credits)
- ☐ **Develop the Matser-Admin and Admin features in the app with the proper approval workflows** --> Onboard the new resident members as per COK protocol/SOP (standard operating procedure)
- ☐ **Continue full app development with prioritized features** --> validated interest & in-sync with relevant developments on the ground
- ☐ **Build hype and interest in app over new social media channels** (reflecting the new brand)
- ☐ **Launch app's Beta-version with the first onboarded group** (who signed up through the website)
- ☐ **Evaluate & adjust as necessary**
- ☐ **Full Launch** - deployment of all main features
